The following toxic metals are regulated. Faculty and staff should understand that these metals require special precautions for disposal. Discharge of these metals, their compounds or aqueous solutions into the sanitary sewer are not allowed. It is preferred that concentrated aqueous solutions of these metals are picked up by EH&S.

Substances:
- Arsenic
- Barium
- Boron
- Cadmium
- Chromium
- Copper
- Lead
- Manganese
- Mercury
- Nickel
- Selenium
- Silver
- Zinc
